STATEWIDE MUTUAL AID AGREEMENT - 2023

This Agreement is an acknowledgment of receipt by the Florida Division of Emergency Management (“the Division”) and the local government (“Participating Party”) signing this Agreement. Execution of this agreement replaces all previous iterations and is active until a new agreement is drafted and requested by The Division.

This Agreement is based on the existence of the following conditions:

- A. The State of Florida is vulnerable to a wide range of emergencies and disasters that are likely to cause the disruption of essential services and the destruction of the infrastructure needed to deliver those services.
- B. Such emergencies and disasters often exceed the emergency response and recovery capabilities of any one county or local government.
- C. Such incidents may also give rise to unusual and unanticipated physical and technical needs which a local government cannot meet with existing resources, but that other local governments within the State of Florida may be able to provide.
- D. The Emergency Management Act, chapter 252, *Florida Statutes*, provides each local government of the state the authority to develop and enter into mutual aid agreements within the state for reciprocal emergency aid in case of emergencies too extensive to be dealt with unassisted, and through such agreements ensure the timely reimbursement of costs incurred by the local governments which render such assistance.
- E. Pursuant to chapter 252.32, *Florida Statutes*, the Division renders mutual aid among the political subdivisions of the state to carry out emergency management functions and responsibilities.
- F. Pursuant to chapter 252, *Florida Statutes*, the Division has the authority to coordinate and direct emergency management assistance between local governments and concentrate available resources where needed.

Based on the existence of the foregoing conditions, the Parties agree to the following articles:
